- 🟠 Dirt Road
- 📏 Street Centerlines
- 🚫 Critical Watershed Area - No Domesticated Animals
- 🌳 Parks/Open Space
- 🌲 U.S. Forest Service
- 🏙️ City Boundary

Bonneville Shoreline North (Approx. 3 miles one-way)
NOTE: NO horses or dogs allowed in Bear Canyon watershed area
 The Bonneville Shoreline Trail extends north of East Bench Trail Head 3.20 miles into Sandy City on the Bonneville bench. It offers great views of the valley. The trail is fairly level for 1.50 miles to the Bear Canyon Creek bridge and then becomes steep and more difficult north of Bear Canyon. Refer to the city-wide trails map for trail alignment.

Canyon Hollow/Ghost Falls Trail Loop (2.90 mile loop)
NOTE: NO horses or dogs allowed in Ghost Falls watershed area
 This trail loop goes up the canyon parallel with Corner Canyon Creek to Ghost Falls. The southern portion of the loop is mostly shaded with the northern portion of the loop more rocky and dry. Leaving Coyote Hollow Trail Head, continue down the Bonneville Shoreline into the canyon to Canyon Hollow Trail. Turn right and continue up Canyon Hollow Trail approximately 1-1/4 miles to a left turn off to Ghost Falls. At the falls you can return the same way back, or continue down the canyon on the Ghost Falls Trail on the northern portion of the loop (more rocky and dry) past the water diversion structure back to the Canyon Hollow Trail.

Humans and animals are prohibited from entering any and all water. Domestic animals are prohibited in critical watershed areas as designated. In permitted areas domestic animals must maintain a distance of 100 feet away from all water. Crossing is allowed on bridges only.

Bonneville Shoreline Trail Southwest (Approx. 5 miles one-way)
 The Bonneville Shoreline Trail extends southwest of Coyote Hollow Trail Head 5 miles to the County Flight Park at the Point of the Mountain on the Bonneville bench. The trail passes various landmarks, including Potato Hill, Red Rock, Traverse Ridge Road tunnel, and Steep Mountain. The trail has moderate grades with only a few steep sections. Refer to the city-wide trails map for trail alignment.

Clarks Trail/Canyon Hollow Trail Loop (4.30 mile loop)
 This trail loop is a mostly shaded single track trail and is a great hiking loop with great views of the valley, canyon, and Lone Peak. Leaving from Coyote Hollow Trail Head, follow the trails signs up Clarks Trail to Peak View Trail Head at the top of the canyon. Continue across the trail head and descend Brocks Point Trail to Canyon Hollow Trail. Turn left down the Canyon Hollow Trail, down the canyon, to the Bonneville Shoreline Trail. Turn left on the Bonneville Shoreline trail and back up to Coyote Hollow Trail Head.

Preferred Bike Route - Corner Canyon/Rush Trail Loop (7.50 mile loop)
 This trail loop is a popular loop for mountain bikes. Please be aware of other users and of trail development along the loop. Leaving the Andy Ballard Equestrian Center, continue up the Lower Corner Canyon Trail (please note signage on single directional trails) to the Lower Road. Continue up the road to the junction with the Bonneville Shoreline Trail and Canyon Hollow Trail. Continue up the Canyon Hollow Trail approximately 2 miles to the Brock's Point Trail. Brock's Point Trail will lead you to Peak View Trail Head at the top of the canyon, where Rush Trail begins. The new Rush Trail is a one-way directional single track flow trail, designated for XC bikes. While the upper 1.7 miles of Rush Trail are completed, the lower portions are still in the development stages. Until its final completion, it will drop you out back onto a dirt road that continues back down to the Canyon Hollow multi-use trail. From here you can follow your tracks back to the Equestrian Center, or you could explore the various parallel trail options (Ghost Falls, Gas Line, or Creek View Trails) on your return down the canyon.
